

Create your resume with CSS

Overview

In the previous assignment, you created a structured resume using HTML. In this follow-up assignment, you will enhance your resume by styling it with CSS to create a visually appealing and professional document.

Objectives

By the end of this assignment, you should be able to:

1. Understand and apply basic CSS properties to style an HTML document.
2. Create a visually engaging resume that portrays your information effectively.
3. Enhance your proficiency in web development by combining HTML structure with CSS styling.

Requirements

- **HTML:** Utilize the HTML resume you created in the previous assignment as the base for this project.
- **CSS:** Introduce a CSS file to define the styles for various elements in your resume, focusing on typography, color schemes, and layout.
- **Responsive Design (optional):** Make your resume adaptable to different device sizes using responsive design techniques such as media queries.

Resources

- [W3Schools - CSS Tutorial](#)
- [Mozilla Developer Network - CSS Basics](#)

Instructions

Step 1: Preparation

- Retrieve the HTML file of your resume from the previous assignment.
- Create a new CSS file (style.css) to store your styles.

Step 2: CSS Integration

- Link your CSS file to your HTML file using the `<link>` element in the `<head>` section of your HTML file.
- Start styling individual elements in your HTML file using various CSS properties such as `font-family`, `color`, `margin`, `padding`, etc.

Step 3: Styling

Focus on the following aspects while styling:

- **Typography:** Choose fonts that are easy to read and professional.
- **Colors:** Develop a cohesive color scheme to enhance the visual appeal.
- **Layout:** Ensure a logical flow of information with a clean and well-organized layout.

Step 4: Responsiveness (optional)

- If you choose to make your resume responsive:
 - Use media queries to adapt your resume's layout for different device sizes.
 - Test the resume on various devices to ensure it displays correctly.

Step 5: Review

- Thoroughly review your resume, ensuring that all information is well-presented and correctly formatted.
- Make necessary refinements to improve visual appeal and readability.
